Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Students entering with a master's degree from another institution may request a waiver of the thesis requirement. It is generally expected that students with an approved thesis waiver will complete the program in the same number of years as students without an approved thesis waiver.

Students entering the program having completed graduate coursework at another institution may request a waiver of specified coursework. A maximum of three courses may be waived due to comparable coursework being completed at another university.

The MSU clinical psychology PhD program was established in 2014 and had its first internship applicants in 2015-2016. In the 2017-2018 year a student registered for match by accident without being cleared by the program and withdrew before submitting applications. The program consulted with APA and was instructed to not count the student as a match registrant in our program's full disclosure data. However, our statistics presented here may differ from the APPIC data for 2017-2018.
