

Minor in Psychology

COURSE REQUIREMENTS

A minor in Psychology can be an extremely valuable addition to a wide variety of majors. The minor in Psychology consists of (1) General Psychology; (2) at least three Psychology Core courses listed below; and (3) three additional Psychology courses from list 2 and/or list 3 below. Essentially, you take General Psychology and 6 more courses, 3 of which must be Psychology Core courses, and 3 of which can be chosen from *either* the Psychology Core list or the Psychology Elective list or a combination of the two.

1. General Psychology

☐ PSY 1013 General Psychology

2. Psychology Core Courses (3 to 6 courses)

☐ PSY 3104 Psychological Statistics

☐ PSY 3213 Abnormal Psychology

☐ PSY 3314 Experimental Psychology

☐ PSY 3343 Psychology of Learning

☐ PSY 3623 Social Psychology

☐ PSY 3713 Cognitive Psychology

☐ PSY 3803 Developmental Psychology

☐ PSY 4403 Biological Psychology

Note: PSY 1013 General Psychology is a prerequisite to all other Psychology courses.

PSY 3104 Psychological Statistics is a prerequisite to PSY 3314 Experimental Psychology, but these courses are seldom taken as part of a Minor in Psychology.

If you wish to use a 3-hour course not listed here, ask the Psychology undergraduate advisor if that is possible.

Important: When you apply for your degree, be sure to claim Psychology as a minor in addition to listing your major. That way, your transcript will be sent to the Psychology Department for verification, and your Minor in Psychology will become an official part of your work here.

Courses marked with an asterisk are infrequently taught.

3. Psychology Elective Courses (0 to 3 courses)

☐ PSY 3003 Environmental Psychology*

☐ PSY 3073 Interpersonal Relations

☐ PSY 3203 Psychology of Gender Differences

☐ PSY 3353 Motivation

☐ PSY 3363 Behavior Modification

☐ PSY 3413 Human Sexual Behavior

☐ PSY 3503 Health Psychology

☐ PSY 3723 Cognitive Neuroscience

☐ PSY 4000 Directed Individual Study

☐ PSY 4203 Theories of Personality

☐ PSY 4223 Drug Use and Abuse

☐ PSY 4333 Clinical Psychology

☐ PSY 4343 Clinical Child Psychology

☐ PSY 4353 Psychology and Law

☐ PSY 4373 Forensic Psychology*

☐ PSY 4423 Sensation and Perception

☐ PSY 4523 Industrial Psychology*

☐ PSY 4643 Social Cognition*

☐ PSY 4653 Cognitive Science

☐ PSY 4733 Memory

☐ PSY 4743 Psych of Human-Computer Interaction*

☐ PSY 4813 Positive Psychology

☐ PSY 4983 Psychology of Aging
